

AIR MED

1-855-AIR MED 1

1-855-247-6331

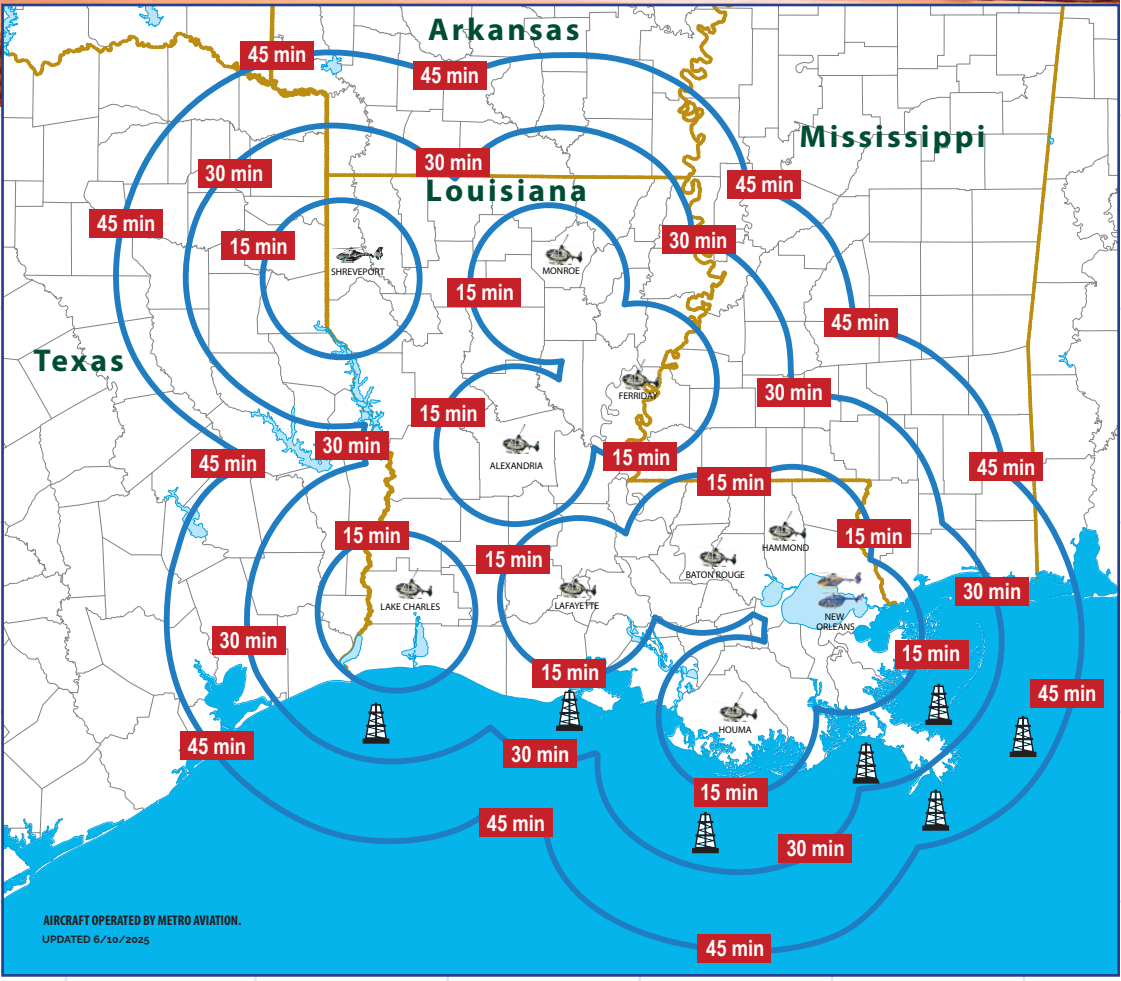

Each aircraft is a twin-engine, instrument rated helicopter and is staffed with a team of certified flight paramedic and flight RNs. We carry blood products on every mission. Air transportation pilots and maintenance are provided by Metro Aviation, Inc.

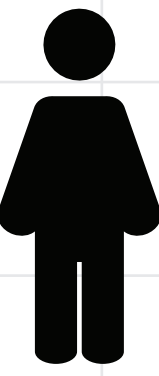

Indications for Air Med Transport

Other conditions not listed below may qualify for transport.

- Major trauma
- Post cardiac arrest
- Risk for airway deterioration or acute pulmonary failure, and/or requirement for sophisticated pulmonary intensive care
- Severe poisoning or overdose
- Gastrointestinal hemorrhages with hemodynamic compromise
- Surgical emergencies such as fasciitis, aortic dissection or aneurysm
- Severe pre-eclampsia or eclampsia

Required Patient Information

- ☒ NAME
- ☒ WEIGHT
- ☒ LOCATION
- ☒ SPECIAL EQUIPMENT NEEDED

Types of Patients Who Benefit from Air Med Transport

- Patients whose clinical conditions require minimal time spent in transport and out of a hospital environment
- Patients with critical injuries or illnesses that require transport by the fastest available method to a hospital 30 minutes driving distance or more
- Patients who require a high level of care during transport, may benefit from minimal out-of-hospital transport time, and may also have time-critical need for diagnostics

Early Activation

Call for Air Med **as soon as it's known that the patient will be transferred.** Air Med can arrive and help prepare the patient prior to acceptance by receiving hospital.

All FAA Part 135 aviation services provided by Metro Aviation, Inc., which maintains exclusive operational control over all aircraft.
